Publications

1. M. G. Gee, R. H. Gee and I. McNaught **Stepwise erosion as a method for determining the mechanisms of wear in gas borne particulate erosion,** Wear, 255(2003) 44-54.
2. A J Gant, M G Gee, and A T May, **The evaluation of tribo-corrosion synergy for WC-Co hardmetals in low stress abrasion**, Wear, 256(2004)500-516.
3. A J Gant, M G Gee and A T May, **Microabrasion of WC-Co Hardmetals in Corrosive Media**, Wear, 256(2004)954-962.
4. M G Gee, C Phatak and R Darling, **Determination of Wear Mechanisms by Stepwise Erosion and Stereological Analysis**, Wear, 258(2004)412-425
5. A J Gant, M G Gee and B Roebuck, **Rotating Wheel Abrasion of WC/Co Hardmetals**, Wear, 258(2004)178-188
6. M G Gee, P Tomlins, A Calver, R H Darling and M Rides, **A New Friction Measurement System For The Frictional Component of Touch**, Wear, 259(2005)1437-1442
7. M G Gee , A J Gant, I M Hutchings, Y Kusano, K Schiffman, K Van Acker, S Poulat, Y Gachon, J von Stebut, P Hatto, G Plint, **Results From An Interlaboratory Exercise To Validate The Micro-Scale Abrasion Test,** Wear, 259(2005)27-35
8. M G Gee, **The Use of PC Scanners In Micro-Abrasion Wear Testing**, Wear, 259(2005)1448-1452
9. M G Gee, B Roebuck and A Gant, **Abrasive Wear Testing with the ASTM B611 and Modified ASTM G65 Rotating Wheel Test Systems**, Plansee Seminar, Reutte, June 2005
10. A.J. Gant and M.G. Gee, **Abrasion Of Tungsten Carbide Hardmetals Using Hard Counterfaces**, International Journal of Refrac and Hard Materials, 24(2006)189-198.
11. M G Gee, A Gant and B Roebuck, **Wear Mechanisms in Abrasion of WC/Co and Related Hardmetals,** EuroPM2006 – Hard Materials and Diamond Tools, Ghent, Belgium, October 2006, 189-194.
12. B Roebuck, A Gant and M G Gee, **Abrasion and Toughness Property Maps for WC/Co Hardmetals**, EUROPM2006 – Hard Materials and Diamond Tools, Ghent, Belgium, October 2006, 201-206.
13. N M Jennett and M G Gee, **Mechanical Testing of Coatings**, Chapter in **Surface Coatings for Protection Against Wear**, Woodhead Publishing in materials, ed B G Mellor, 2006
14. I M Hutchings, M G Gee and E Santner, **Friction and Wear**, Chapter in **Springer Handbook of Materials Measurement Methods**, eds Czichos, Saito and Smith, 2006
15. M G Gee and A D Gee, **A cost effective micro-tribology test system**, to be published in Wear, 2007

GOOD PRACTICE GUIDES

1. E Bennett, M Gee, L Lay, R Morrell and B Roebuck, **Tests for Advanced Technical Ceramic Materials Performance,** NPL Measurement Good Practice Guide no 19, August 1999.
2. B Roebuck, M Gee, E G Bennett and R Morrell, **Mechanical Tests for Hardmetals**, NPL Measurement Good Practice Guide no 20, March 2000.
3. M Stewart, M Cain and M Gee, **Piezoelectric Displacement in Ceramics**, NPL Measurement Good Practice Guide no 23, May 1999.
4. F Lowrie, M Stewart, M Cain, M Gee, **Piezoelectric Finite Element Analysis**, NPL Measurement Good Practice Guide no 24, May 1999.
5. M G Gee and M J Neale, **General Approach and Procedures for Unlubricated Sliding Wear Tests**, NPL Good Practice Guide no 51, January 2002
6. M G Gee, A Gant and I M Hutchings, **Rotating Wheel Abrasive Wear Testing**, NPL Good Practice Guide no 55, March 2002.
7. M G Gee and I M Hutchings, **General Approach and Procedures for Erosive Wear Testing**, NPL Good Practice Guide no 56, 2002.
8. M G Gee, A Gant, I Hutchings, R Bethke, K Schiffmann, K Van Acker, S Poulat, Y Gachon and J von Stebut, **Ball Cratering or Micro-Abrasion Wear Testing of Coatings**, NPL Good Practice Guide no 57, 2002.

REPORTS

1. M G Gee and A D Gee, **A New Micro-Tribology Test System**, NPL REPORT DEPC-MPE 040, MARCH 2007
2. L A Chapman and M G Gee**, Crossed Rod High Stress Wear Testing,** NPL Measurement Note, DEPC (MN) 044, February 2007
