- International Conference for Radiation Metrology

International Committee for Radionuclide Metrology Conference

Oxford, September 5th – 9th 2005

The goals of ICRM 2005 are:

- to provide an opportunity for the exchange of information on techniques and applications of radionuclide metrology
- to encourage international co-operation in this field

Expecting 150+ delegates from UK and overseas (national standards laboratories, universities, reference materials suppliers, users, international organisations)

- **Main Conference**

- Intercomparisons
- Low-level Measurements
- Aspects of International Metrology
- Radionuclide metrology techniques
- Measurement Standards & Reference Materials
- Source Preparation
- Alpha & Beta Spectrometry
- Gamma Spectrometry
- Life Sciences
- Nuclear Decay Data
- Liquid Scintillation Counting

35+ Oral presentations, 55+ Posters

- Smaller, specialist, workshops looking at specific fields of measurement:
 - Low-level Measurements
 - Radionuclide Metrology Techniques
 - Alpha & Beta Spectrometry
 - Nuclear decay Data
 - Gamma Spectrometry
 - Liquid Scintillation Counting
 - Life Sciences

Other events

- General meeting of ICRM members
- ICRM Executive Board meeting
- Industrial exhibition
- Civic reception
- Social programme for partners
