

# The NiCE-MSI team at NPL successfully presented four posters at the 62nd Annual ASMS conference in Baltimore, USA.

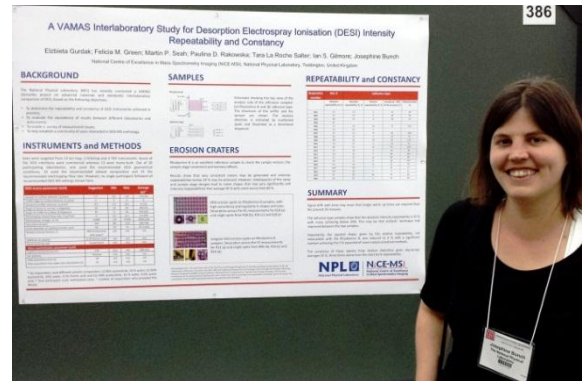

**Tara Salter**

The importance of sample form and surface temperature in plasma assisted desorption ionisation mass spectrometry (PADI-MS)

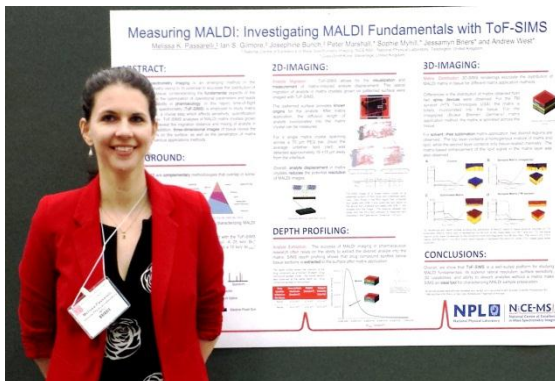

**Josephine Bunch**

A VAMAS Interlaboratory Study for Desorption Electrospray Ionisation (DESI) Intensity Repeatability and Constancy

**Melissa K. Passarelli**

Measuring MALDI: Investigating MALDI fundamentals with ToF-SIMS

**Rory T. Steven**

Systematic study of stage raster speed, laser repetition rate and pulse energy in MALDI MSI
